Management  
Institute  
Sweden

## CONGRESS PRESENTATION

Passion for Projects will take place 10-11 March 2025 at Svenska Mässan in Gothenburg, Sweden.

Passion for Projects Congress is Scandinavia's largest project management event, attracting hundreds of like-minded professionals yearly for two days of high-quality learning and networking.

Passion for Projects is arranged by the Project Management Institute (PMI) Sweden Chapter. PMI is a global non-profit organization and the leading association for project, program, and portfolio management professionals in the world, run by its members and volunteers. PMI today has over 700,000 members worldwide, including more than 1500 members in Sweden.

The title of this year's congress is **"Sustainable project management in the AI lens"** and in addition to international keynote speeches in the main hall, a number of presentations and interactive sessions, all on this topic, will be presented in minimum three parallel tracks, inspired by the theme and in accordance with the PMI Talent Triangle.

Passion for Projects Congress 2025 will also be a perfect chance to connect with over 500 practitioners, specialists, and decision-makers, and other industry experts from Scandinavia, the Baltic region, and beyond.

Take the opportunity, get yourself and your organization an update on Project Management and network with attendees and exhibitors.

For our Swedish and other European chapter members the discount is 1200 SEK and an additional 800 SEK if registering latest by February 7th.

Prices could be found here:

<https://www.passionforprojects.org/Boka-Book>.

Book soon and get the discounted Early Bird price.

**PASSION FOR PROJECTS**

Svenska Mässan Göteborg, 10-11 March 2025

**KEYNOTE SPEAKERS****Christina Sejr Pedersen****AI Can Assist, But People Lead: The Future of Project Management**

With over 25 years of experience in the project management field, Christina Sejr Pedersen has held roles such as Project Manager, Programme Manager, Director of PMO, and VP of Project Management. She has successfully led PMOs across government, non-profits, and private sectors. Christina is the founding mother of the Half Double methodology and has received two prestigious international awards for her groundbreaking work with PMOs and innovative project management models

**Tim Rumbaugh****AI and the Battle Against Natural Stupidity & AI is not the next step for your projects**

Tim Rumbaugh brings over 30 years of experience in program and project management across diverse industries. For the past eight years, he has co-led the Transcatheter Heart Valve PMO at Edwards Lifesciences, focusing on medical device development and strategic programs for structural heart therapies. Prior to this, Tim spent four years leading programs at a contract R&D start-up, developing point-of-care devices for allergy, immunotherapy, and DNA analysis. His career also includes more than 20 years in aerospace, managing programs for Parker Hannifin, Boeing's GPS constellation, and Northrop Grumman's B-2 Bomber program, delivering innovative solutions for military and business jet clients.

**Bledar Beqiri****How AI is enhancing carbon project development**

Bledar Beqiri is a dedicated sustainability expert with extensive experience in cross-disciplinary project management and standard development. Passionate about driving solutions for combatting plastic pollution, enabling carbon capture and storage, ensuring responsible management of critical raw materials, and empowering renewable energy integration.

**Speakers & Program can be found on [www.passionforprojects.org](http://www.passionforprojects.org)**
